Jonathan McGraw - Ben Avery Clay Target Center, Shotgun Range Manager

Cc: John Bergman – Amateur Trap Shooting Association (ATA) Delegate

Subject: Arizona State Shoot October 28 – November 1, 2020

On Sunday, November 1, 2020, the Arizona State Trapshooting Association Annual Membership Meeting was held.

During our meeting, several members expressed serious concerns over the quality of our State Shoot. The majority of issues involved speakers not working, flight of targets not meeting ATA standards and the practice trap shutting down early.

Other concerns were not having enough access to restrooms, as well as drinking water and food vendors. The restroom situation was critical, especially during the State Covid 19 conditions we faced. Our members felt temporary portable restrooms with sanitation stations would have alleviated this condition. The majority of clubs throughout the United States, that our members attended, met these minimum requirements for their shooters.

As a result, several members are pushing to permanently hold the State Shoot at Tucson Trap & Skeet Club. They feel the Tucson's club meets the needs of running a successful State Shoot. Without your support, we anticipate this sentiment of members may grow going forward.

We have recently witnessed positive changes at Ben Avery and want to ensure the upcoming target year provides everything the shooters expect in experiencing a successful ATA event.

Members of our Board would be happy to meet with you to discuss these matters, in a positive and constructive manner, to achieve success in what we believe is a common goal. Your formal response is appreciated.

Respectfully,

ASTA Board of Directors:

Karen Bergman – Vice President

Steven Bell – Secretary/Treasurer

Jesse Zamora – Director Central Zone
